Maeno Area
[Earthquake]

Regional Disaster Prevention Support Section, Itabashi City—March 2026

・This map was co-created by Maeno Area residents and Itabashi City during the 2025 Itabashi City Area-Based Disaster Prevention Manual Workshop.
・To prepare for an earthquake, consider potential earthquake-related hazards in particular. Then, review how to respond to them using disaster relief resources.

Local Disaster Prevention Rules for the Maeno Area

- Evacuate while checking on others.
- Confirm the safety of your neighbors on both sides.
- Stock about two days' worth of drinking water and food for yourself.

Evacuation site
Kirigaoka, Akabanedai, and Nishigaoka Area
Nakadai 3 Chome Area

Daily preparations

Check the box when completed.

- [ ] Install a furniture anti-tip kit.
- [ ] Install an earth leakage circuit breaker.
- [ ] Prepare portable toilets and stock a week's supply of food.
- [ ] Receive a building quake-resistance assessment and remove or rebuild any hazardous concrete block walls.
- [ ] Check the locations of street fire extinguishers.
- [ ] Check your nearest evacuation site and evacuation shelter.

In the event of an earthquake

Write down your nearest evacuation site.

◇ If there is a risk of home collapse or fire

Ensure your safety first.
Temporary meeting place
Municipal elementary and junior high schools, nearby parks, etc.

If a major fire occurs
Evacuation site
Big parks, squares, etc.

If your home is uninhabitable
Evacuation shelters, relatives' or acquaintances' homes, hotels, etc.

◇ If your home is habitable ⇒ Shelter in place.
Stock up on food and daily necessities on a regular basis to stay safe at a regular basis to stay safe at home.

In the event of an earthquake directly beneath the eastern part of Tama, the assumed seismic intensity in the Maeno Area would be **lower 6 to upper 6.**
