いたばし防災一ー プラス Map

Sakuragawa Area [Earthquake]

Regional Disaster Prevention Support Section, Itabashi City—March 2026

- This map was co-created by Sakuragawa Area residents and Itabashi City during the 2025 Itabashi City Area-Based Disaster Prevention Manual Workshop.
- To prepare for an earthquake, consider potential earthquake-related hazards in particular. Then, review how to respond to them using disaster relief resources.

Earthquake Hazard Areas

Dense wooden urban area

Building at risk of collapse

Community Disaster Relief Resources

Water supply station

Emergency supply warehouse

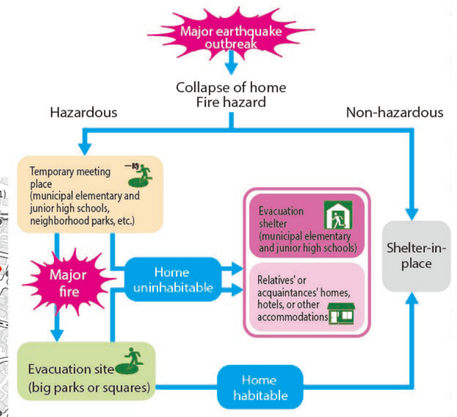

Use the Itabashi Disaster Prevention + App!

With this app, you can confirm your family's safety, receive evacuation information, and check the status of the utilities.

* No personal information registration is required.

Flow of Evacuation

Legend

Disaster Relief Resources — Write down any other local resources you find on the map.

- Temporary Meeting Place (Neighborhood Association Disaster Response Headquarters Location)
- Evacuation Site
- Evacuation Shelter
- Fire Hydrant
- Street Fire Extinguisher
- Fire Water Tank
- Emergency Deep Well
- Standpipe
- Emergency Water Supply Station
- Disaster Prevention Broadcast Tower
- AED Location
- Emergency First Aid Station
- City Office, Branch, or Residents' Office
- Regional Center
- Community Space, Hall, or Fureai Hall
- Community Disaster & Fire Response Team Garage
- Temporary Stay Facility for Stranded Commuters
- Nearby Municipal Evacuation Shelter
- High School

Other disaster relief resources (some photos shown)
Parks, pocket parks, shrines, parking lots (vacant lots), fields, welfare facilities, nursing homes, hospitals, clinics, pharmacies, gas stations (fuel, emergency medical trainees), fire-resistant buildings, offices (resources and equipment), stores (groceries), disaster-response vending machines, public baths (water sources), public telephones, bulletin boards, detention basins, sandbag stations, etc.

This map shows the locations of AEDs installed at facilities in Itabashi City, such as the city office, as of March 2026. To find your nearest AED, please also visit the National AED Map provided by the Japan Foundation for Emergency Medicine.

National AED Map (Japan Foundation for Emergency Medicine)

Earthquake Hazards

■ Ground (Collapse)
- Earthquake-prone ground along former riverbeds
- Areas with steep slopes

■ Buildings (Fire and Collapse)
- Dense wooden urban areas
- Aging wooden houses and vacant houses
- Concrete block walls and high walls
- Large glass windows on buildings (falling)
- Apartment buildings (interference with daily life)

■ Roads (Blockage and Traffic Interruption)
- Narrow roads
- Dead ends
- Slopes and sharp curves
- Crossroads with limited visibility
- Utility poles
- Congestion on arterial roads (Kawagoe Kaido and Kannana-dori Ave.)
- Footbridges over arterial roads (collapse)
- Congestion on local loads (e.g., Moroyama-dori St.)

Neighborhood/residents' association area — Sakuragawa Area

There are fire hydrants, fire water tanks, street fire extinguishers, and fire hydrant manholes throughout the town. To prepare for fire following an earthquake, check their locations and review how to use them.

Fire hydrant

Street fire extinguisher

Standpipe

Fire hydrant manhole

Firefighting water source

Evacuation site
Johoku Chuo Park Area
Kosha Mukaihara Housing Complex Area

Neighborhood/residents' association name	Temporary meeting place (Neighborhood association disaster response headquarters location)
Komone 3 Chome Neighborhood Association	Court House parking lot
Moro Neighborhood Association	Sakura Square in Johoku Chuo Park Komone 4 Chome Park
Higashiyama Neighborhood Association	South gate of Kami-itabashi Elementary School
Toshincho 2 Chome Neighborhood Association	Toshin Children's Playground
Sakuragawa Neighborhood Association	Children's Playground
Sakuragawa 2 Chome Neighborhood Association	Midorigaoka Daini Park

Daily preparations — Check the box when completed.

- [ ] Install a furniture anti-tip kit.
- [ ] Install an earth leakage circuit breaker.
- [ ] Prepare portable toilets and stock a week's supply of food.
- [ ] Receive a building quake-resistance assessment and remove or rebuild any hazardous concrete block walls.
- [ ] Check the locations of street fire extinguishers.
- [ ] Check your nearest evacuation site and evacuation shelter.

In the event of an earthquake — Write down your nearest evacuation site.

◇ If there is a risk of home collapse or fire

Ensure your safety first.
Temporary meeting place
(Neighborhood association disaster response headquarters location)
Municipal elementary and junior high schools, nearby parks, etc.

If a major fire occurs
Evacuation site
Big parks, squares, etc.

If your home is uninhabitable
Evacuation shelters, relatives' or acquaintances' homes, hotels, etc.

◇ If your home is habitable ⇒ Shelter in place.
Stock up on food and daily necessities on a regular basis to stay safe at home.

In the event of an earthquake directly beneath the eastern part of Tama, the assumed seismic intensity in the Sakuragawa Area would be **lower 6 to upper 6.**

This map uses data provided by Itabashi City. However, due to limitations in data accuracy, there may be differences between actual locations and those shown on the map.

This map is based on the latest data provided by the City at the time of its creation. Information on the map may differ from current conditions in some areas.

Evacuation shelter information outside Itabashi City is based on data from the Geospatial Information Authority of Japan (GSI)'s "Evacuation Shelter Data Download Website." The map was created with modifications to the Fundamental Geospatial Data (basic items) on the GSI's "Fundamental Geospatial Data Download Website."
